

# B Connectors

P/N 18151

P/N 18141

**Fast, reliable connection of telcom wires with no stripping or long-term corrosion.**

Just slip them over the wires and crimp. Dozens of sharp copper piercing teeth penetrate the insulation for an easy connection.

- Fits up to four 22-24AWG wires or three 18-20 AWG wires (three 16AWG wires if stripped)
- Blue connectors are filled with a moisture-resistant sealant that will not cure or leak out when crimped

**Secure design provides a reliable connection with no stripping**

Part #	Product	Qty	UPC
18141	White - Plain	100	849160009580
18140	White - Plain	1,000	849160009573
