

1080p Penta-brid HDCVI DVR

16-Channel 1U Digital Video Recorder with Analytics+

WizSense Series devices combine Dahua's powerful Analytics+ with an intuitive and easy to use interface. WizSense devices offer Smart Motion Detection and Perimeter Protection functions that focus on human and vehicular images and ignore irrelevant images to capture important video while reducing false alarms. WizSense Series devices provide powerful general surveillance for small to medium size businesses at a sensible price.

System Overview

The X51C Series HDCVI DVR offers 5M-N/1080p recording on each HDCVI channel and a host of advanced features and functions. The DVR takes advantage of HDCVI technology for easy integration into existing video surveillance systems while leveraging existing networks, cabling, and cameras. Penta-brid access technology seamlessly records video from HDCVI, AHD, TVI, CVBS, and IP sources simultaneously. This recorder is the ideal solution for actively monitoring public venues, retail stores, transportation hubs and access ways, personal property and homes, and educational institutions.

Functions

Perimeter Protection

Dahua Analytics+ includes Tripwire and Intrusion functions that offer custom tripwires based on object type for automation in limited access areas. Perimeter Protection requires less pixels to detect an object to deliver improved accuracy and decreased false alarms due to lights, weather, trees, or animals.

Smart Motion Detection

The Smart Motion Detection, a component of Dahua's Analytics+ technology, improves alarm accuracy and decreases the number of false alarms. The advanced SMD algorithm analyzes a scene for human or vehicle motion, while filtering out other motion due to trees, leaves, animals, weather, and triggers an alarm when detected.

- 1080p at 30 fps Recording Resolution on All HDCVI Channels
- Available with a 4 TB, 6 TB, 8 TB, or 10 TB Pre-installed Hard Drive
- Dual-stream Video Recording
- Al Coding Technology for High-quality Human/Vehicle Video
- Auto-detection and Auto-configuration of Video Inputs
- 16 + 8 IP Camera Channels, each channel up to 6 MP
- Maximum 128 Mbps Incoming Bandwidth
- Perimeter Protection and Smart Motion Detection (SMD)
- Long-distance Video Transmission
- Five-year Warranty*

Al Coding

The AI Coding function puts recording emphasis on human or vehicular objects in the video scene. This technology, based on constant bit rate (CBR), dynamically allocates increased bit rate to the target object while reducing the bit rate allocated to background objects. AI Coding reduces bit rate and storage requirements by up to 50% when compared to the H.265 video compression standard.

Smart H.265+

Smart H.265+ is the optimized implementation of the H.265 codec that uses a scene-adaptive encoding strategy, dynamic GOP, dynamic ROI, flexible multi-frame reference structure and intelligent noise reduction to deliver high-quality video without straining the network. Smart H.265+ technology reduces bit rate and storage requirements by up to 90% when compared to the H.264 video compression standard.

HDCVI/AHD/TVI/CVBS Auto-detect

The HDCVI DVR automatically recognizes the incoming signals of each attached camera without any setup, making installation easy and operation convenient.

Long Distance Transmission

HDCVI technology guarantees real-time transmission over long distances without loss of video quality. HDCVI devices provide the same resolution as most IP network camera systems using existing RG-59, RG-6, or CAT 6 UTP cabling.

Pro Series | X51C3E Series

Technical Specification		
System		
Main Processor	Embedded Processor	
Operating System	Embedded LINUX	
Analytics+ Perimeter Protection ^{1,2}		
Performance	Human and Vehicle object classification Decreased false alarms from leaves, lights, animals Configure function on two (2) analog channels 10 Tripwire/Intrusion rules per channel	
Live View	Configure Rule and Object Inspection area Display object classification, event types, trigger time, image snapshot, and object types Export event playback 10 seconds prior to or after event	
Playback	Search by channel, time, event type, and target type Search event playback 10 seconds prior to or after event Snapshot capacity: 500,000	

Analytics+ Smart Motion Detection^{1,2}

Performance	Detect motion based on object classification (human or vehicle) Decreased false alarms from leaves, lights, animals Configure functions on 16 analog channels
Preview	Configure and inspect detection area
Playback	Search by channel, time, event type, and target type Search event playback 10 seconds prior to or after event

Interface

Interface			
Analog Camera Input		16 Channels, BNC	
HDCVI		5 MP, 4 MP, 1080p, 720p	
AHD		5 MP, 4 MP, 1080p, 720p	
TVI		5 MP, 4 MP, 1080p, 720p	
CVBS		NTSC	
IP Camera Input		16 + 8 Channels, each channel up to 6 MP (The recording rate is dependent on the maximum resolution and frame rate of the connected IP camera.)	
Audio		Input: 16 Channels, RCA Output: One (1) Channel, RCA	
Two-way Talk		Audio Input Channel 1 In/ Audio Output, RCA	
Recording			
Compression		Al Coding, Smart H.265+, H.265, Smart H.264+, H.264	
Recording Resolution ³		5 M-N, 4 M-N, 1080p, 1080N, 720p, 960H, D1, CIF (The recording rate is dependent on the maximum resolution and frame rate of the connected IP camera.)	
Record Rate	Main Stream	5 M-N at 20 fps 4 M-N or 1080p, 1080N, 720p, 960H, D1, or CIF at 30 fps	
	Sub Stream	D1 or CIF at 15 fps	
Max. Incoming	Bandwidth	128 Mbps	
Bit Rate		32 Kbps to 6144 Kbps per Channel	
Record Mode		Manual, Schedule (Regular, Continuous), MD (Video Detection: Motion Detection, Video Loss, Tampering), Alarm, Stop	
Record Interval		1 to 60 minutes (default: 60 minutes), Pre-record: 1 s to 30 s, Post-record: 10 s to 300 s	
Audio Compression		G.711a, G.711Mu, PCM	
Audio Sample Rate		8 KHz, 16 bits per Channel	
Audio Bit Rate		64 Kbps per Channel	

The recorder is capable of two (2) simultaneous Perimeter Protection channels, 16 SMD channels, or one (1) Perimeter Protection channel and eight (8) SMD channels. Perimeter Protection and SMD cannot be used on the same channel.

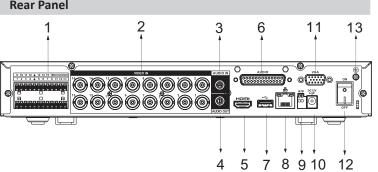

Analytics+ functions on all HDCVI channels are disabled if an IP camera is enabled on channel 17 through 24.

^{3.} The M-N resolution refers to technology that allows a 1080p HDCVI DVR to accept a video signal from a 5 MP or a 4 MP camera by sampling every other pixel on a horizontal line from the camera. The resulting recording resolutions are: 5 M-N: 1296 x 1944; 4 M-N: 1280 x 1440.
