

# **Quick Networking Guide**

# **Before You Start:**

 Make sure you have a router and high-speed Internet access (not included).

- Connect the recorder to a router using an Ethernet cable (see the Quick Connection Guide for details).
- Upgrade the recorder firmware and client software or mobile app to the latest versions.
- Please note that an upload speed of 5 Mbps is recommended for remote video streaming. Up to 3 devices may connect to the system at the same time.
